

MIA IS NOT SLEEPY
written and illustrated by Írisz Agócs

The stars are twinkling in the evening sky.

Mia is not sleepy yet.
"What should I do?"

I'll drink a cup of warm milk
and eat some bread and honey.

It's delicious but it didn't make me sleepier.

I'll exercise for a bit,
maybe that'll help!

I'm tired, but I'm still not sleepy!

I'll finish the drawing I started after lunch,
maybe that'll make me fall asleep.

It's beautiful but now
I really don't want to go to bed at all!

Could it be that a monster lives under my bed
and doesn't let me sleep?

I only found a sock,
and that's not very scary...

I'll count the stars,
there are quite a lot...

...so many that I always
mess up the numbers.

Maybe if I slip into bed...
close my eyes...

...and imagine that I'm sleepy
and I'm falling asleep...

I'm sleepy
and I'm falling asleep...
Good night, Mia!
